Mersey Typhoon Superfold Folding Shutters

COO	Manufactured in United Kingdom
Gate frame	Assembled from pairs of 19mm x 11mm x 3mm heavy duty galvanised mild steel channel vertical pickets, fitted with precision hardened ball bearing pulleys at the top and malleable iron cast guide blocks at the bottom. Hot rolled 30mm x 10mm zinc plated mild steel lattice bars pass between and interconnect the vertical pickets. Option: powder coating to both sides to standard RAL
Safety	Options: Radio Conductive Safety edge Send/ Receive photo cell
Shutter Leaves	305mm or 203mm x 1.5mm or 1.2mm Galvanised Leaves on 19mm pickets & 25 x 6 MS Lattice Bars
Top Track	Gates top hung from 2-piece fabricated box type steel top track complete with mild steel convex runner rail and galvanised mild steel soffit. When shutters are face fixed tracks are secured to structure via heavy duty mild steel brackets.
Bottom Track	Heavy duty fabricated Stainless Steel double angle bottom track lugs for grouting into pocket set in floor.
Cover Plate	Galvanised. All non-galvanised parts to be given one coat of rust inhibiting primer
End Panel	Galvanised. All non-galvanised parts to be given one coat of rust inhibiting primer
Drive Chain	i) Manual Operation OR ii) Electrical operation via 400v 3ph 50Hz foot mounted geared motor unit complete with slipping clutch, disengage rope and handle override system in case of power failure, limit switches to stop travel of shutter when it reaches the fully open and closed positions. The motor drives an endless roller chain connecting to the leading edge and all supported in a tray system secured to the top track
Finish	i) Galvanised. All non-galvanised parts to be given one coat of rust inhibiting primer. AND/OR ii) Polyester powder coated to any BS/RAL colour
Wind load	Shutters to withstand 3Kpa wind pressure
Speed	Up to 350mm/sec
Control	1 ph or 3ph Inverter panel c/w 3 Push Button Control (Open/Close/Stop) Control panel which control the speed of shutter to provide soft start/stop by setting parameter Fault/Error Codes will be display in control panel to identify abnormal parts
