Service is our Value - we offer Technical Advice & Customized Drawings, Ironmongery Schedules, Master Key Plans, Project Management, Supply & Installation, Training and Maintenance programs.

Key partners and suppliers include GILGEN Door Systems, DormaKaba Security Solutions, EFAFLEX High-Speed Doors, HART Security Shutters, ABUS Security Tech Germany, TBS Biometric Solutions and AIR-LUX Window Systems.

Our experienced team with its in-depth market knowledge, product know-how and business experience is driving AUB Ltd to become a leading brand in the Industry.

Biometric Fingerprint Smart Lock

**NEW
PRODUCT**

CLAVIS

Outstanding experience in Digital
Door Lock Technology
Manufactured in Korea

CMF-1000K

Functions Description

Convenience

One Touch to Open

The door can be opened without any password and key as long as you have the Smart Phone on you (in your pocket/handbag). The lock automatically recognizes the Smart Phone over a distance of up to (around) 1m.

Automatic Locking

The door is automatically locked after closing.

Compatible with Smart Phone

Compatible with Smart Phone to open the lock remotely and checking access history and etc.

Capacitive Fingerprint Sensor

8K algorithm enables quick authentication even when only part of the fingerprint is scanned.

Safety

External Forced Locking

When leaving, the user can set up the External the Locking mode by simply pressing PIN code, preventing burglar by creating alarm.

Internal Forced Lock

Inside locking button engaged doubles security and improves safety.

Wrong-Try Lock-Out

All the functions are stopped for duration of 1~2 minutes if an unregistered P/W is entered 3 times or more.

Fake PIN Code

Press any password before you input the correct password. This function prevents password exposure.

Burglar (Break-in / Damage) Alarm

Built-in sensors will detect any case of attempted forcible entry and trigger a loud alarm sound.

High Temperature Alarm

In case of fire, a heat detecting sensor will automatically unlock the door and sound an alarm in case detected temperatures reach 60 (±10).

Function

Volume Control

The user can control the volume.

Silent Mode

The door lock offers a silent mode if the user does not want key pad volume.

Low Battery Warning Sound

A sound will ring when the door is open/closed indicating the need to replace batteries.

Emergency Power Supply

This product is designed to use an emergency external power source (9V) in case of dead batteries.

Master Function

Passwords / Card sets are available for master key for overall management (e.g. one card for access to multiple door locks)

Advance Mode

Advance mode optional for professional and high secure management system.
