Straight sliding Systems for glass doors of 12 or 15 mm thickness, combining refined design with smooth rolling.

- Thanks to the clamp, there is no need to drill the glass in any way.
- Comfortable: the damper closer system M66 for gentle closing of doors (automatically follows door to its closed position over 100 mm); and hydraulic closer stop allows doors to open softly.
- Practical: the clamp can be mounted with or without pelmet (no drilling on the visible side).
- Clever: Rollers equipped with a ball joint that improves the robustness of the system and adjusts to any mounting location defects.
